## Bio

Zaamom, born in September 1987 in Morocco, was greatly inspired by art from a young age. He grew up in the Ocean neighborhood of Rabat. Seawater became ink for his drawings and waves, a source of inspiration for his work as well as a playground for his favorite sport: bodysurfing.

After studying contemporary literature, Zaamom attended art classes, taking part in many professional events in both artistic and athletic fields.

He stands out for his particular drawing and painting style that coordinates forms, sizes and colours in an innovative way, inspired by the colorful underwater world and the rhythm of the tides. He is now regarded as one of the most influential street artists in Morocco, and that, since 2012. Also, 12 is the number of bodysurf national championships he actually won.

# Mock up

My drawings are all handmade as I am inspired by the touch. In order to feel the pleasure of art, you must touch the pen.

This artistic approach was developed through 11 years of diligent practice. This rather personal style is a spontaneous reflection on the dynamic between forms and colors. Dynamism is the embodiment of my spirit, vibrant colors are inspired by life and the spontaneity comes from the heart. Here is what it looks like.

A smartphone screen displaying a music player interface. The top status bar shows the time as 12:12, battery level at 84%, and signal strength. Below the status bar is a navigation bar with a back arrow on the left and a play/pause button on the right. The main area of the screen features a colorful, abstract illustration of a face with large eyes, a mustache, and a lightning bolt. Below the illustration, the word "Protea" is displayed in a bold, white, sans-serif font. Underneath "Protea" is the artist's name, "Martine Labbé", next to a small profile icon. Below the artist's name is the text "Album • 2017". At the bottom of the screen, there are three icons: a green heart, a vertical ellipsis, and a green circle containing a white double-lined square symbol. The bottom-most text on the screen reads "Martine Labbé Protea King • Omary Fight •".

# Carica ture

Caricature is a great way to create joy. If I make you smile, I've succeeded. Since my professional training with international caricaturists 13 years ago, I honed my skill so I could find and showcase familiar and unique traits of people's faces. Might it be through my concept "LBESS WJHK" (Wear your face) or hosting corporate events, you will never see yourself in the same light.
